**Attachments:** Riverside fact sheet RIFS\_2020\_7.docx

Fact sheet for next week – as we spoke about a couple key take-aways:

1. We have funds from EPA and contract mod is underway
2. It's CRITICAL my contract folks award this NLT 7 Aug (feel free to suggest they do sooner).
  - a. This is a 'vanilla' mod; it's lower dollar than many and is what we call 'funding mod' (no new work – funding tasks we have already discussed with LBG).

I included another funding projection not knowing our post-ROD situation but with FY end we don't want to be without funds. You'll see short note under funding table.

I didn't dwell on the PPG situation but happy to edit anything on this sheet that you like.

For a kudos – could mention LBG did a nice job on the CIP and organized within the community well to get input.

I will be working over the weekend so feel free to reach out if there is anything you need.
